EDUCATION

- 2026-2027

MSc in Public Health - Statistics, Modelling & Health Data Science, Sorbonne University, France
- 2025-2026

MSc in Public Health - Non-medical track, Paris-Saclay University, France
Thesis: “Addressing Confounding in Counter-Matched Nested Case-Control Design”
Under the supervision of Jr. Prof. Tat-Thang Vo - **18.5/20, highest score**
- 2019-2024

BSc in Public Health, University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam
Thesis: “Methods for Estimating the Risk of Respiratory Infectious Disease Outbreaks: A Systematic Review and Case Study”
Under the supervision of Assoc. Prof. Gia Kien To - **9.2/10, highest score**

EXPERIENCE

- 2026

Intern, INSERM U955, Mondor Institute for Biomedical Research, Paris-Est Créteil University
Conducted methodological research on nested case-control designs and sampling methods, with a focus on matching and counter-matching
- 2023-2024

Research Assistant, Mathematical Modelling Group, Oxford University Clinical Research Unit
Conducted two sero-surveillance and epidemic-risk projects with Ho Chi Minh City Center for Disease Control and analyzed population and serological data in R to assess outbreak risk and immunity trends
- 2023-2024

Research Assistant, University of Medicine and Pharmacy at Ho Chi Minh City
 - Department of Internal Medicine:** Conducted statistical analysis in R for a colorectal cancer prognostic modelling project in collaboration with a faculty member
 - Department of General Medicine:** Conducted a cross-sectional study on health insurance utilization among older adults using questionnaire-based data and scoring methods
- 2022-2023

Youth Science Ambassador, Public Engagement & Communication Group, Oxford University Clinical Research Unit
Coordinated infectious-disease science communication projects, including “Collab Lab” (5,000+ social media interactions) and “Meet the Scientists”, connecting experts with students from seven Vietnamese universities
- 2021

Volunteer, Infection Prevention & Control Department, Ho Chi Minh City Center for Disease Control
Analyzed epidemiological data and supported daily COVID-19 surveillance and reporting through an HCDC-managed dashboard

TEACHING AND TRAINING

- 2023-2024

Trainer, Systematic Review & Literature Search Methodologies, OUCRU & HCDC - 30 people
Trained CDC staff on systematic review protocols, literature search strategies, and evidence synthesis tools

PUBLICATIONS

- 2026

Le TTK, **Nguyen TL**, Yu R, Small DS, Vo TT. Combining matching and counter-matching in nested case-control sampling. (Manuscript in preparation)
- 2025

Ong T, **Nguyen TL**, et al. Detection of Immunity Gap before Measles Outbreak, Ho Chi Minh City, Vietnam, 2024. Emerging Infectious Diseases. 2025;31(10):2059-2062. doi:10.3201/eid3110.250234.

AWARDS AND HONOURS

- 2021

Academic Excellence Scholarship - University of Medicine and Pharmacy at Ho Chi Minh City, Vietnam
- 2021

Certificate of Merit – Ministry of Health, Vietnam

LANGUAGES

- Natural

Vietnamese (Native), French (Professional), English (Professional)
- Programming

R, Python, LaTeX
